

Eternal Rain

BEXEY

I hear em say rain rain, go away
Come back another day
Rain rain, go away
Come back another day
I still don't hear em say rain rain, go away
Come back another day

Hear my name in the rain
My name in the rain
Put your ear to the sky
Hear my name in the rain
Know the name
They listen to that rain, rain
And them clouds get dark
So the sky ain't bright
And that rain gets heavy
When it's later at night
You know the name, name
They listen to that rain, rain

Okay I know that you hear that
You feel that
Heavy sound of rain
Lay there at night
Sees it race down the window pane
Black sky, meditate
Night vision up in my brain
[?] Test run
And there ain't no delay
Indicators off, no U-turn

One round and it's touchdown
And I'm never falling, never break
That [?] calling
That rain is ready to hang up
Call me back in the morning
So leave
Rain rain
Go away please
I hear vision, vision
Repeat
And I can't sleep
Come back another day
Tryna dream in peace
Whisper of voices in my mind
Just release, release
Mysterious
Mystically

It was midnight, around this time
I be woken
By myself, there's no noise
But these footsteps

Hear my name in the rain
Hear my name in the rain
Voice repeating in the rain

Tryna escape the maze
Every day, every night
Rain falling outside
[?] Calling
There's no way to pause it
Hear my name in the rain
Hear my name in the rain
Voice repeating up in the brain
Tryna escape the maze
Every day, every night
Rain falling outside
[?] Calling
No way to pause it

Rain rain, go away
Come back another day
I hear em say rain rain, go away
Come back another day
Rain rain, go away
Come back another day
I still don't hear em say rain rain, go away
Come back another day

Hear my name in the rain
My name in the rain
Put your ear to the sky
Hear my name in the rain
Know the name, name
They listen to that rain, rain
And them clouds get dark
So that sky ain't bright
And that rain gets heavy
When it's later at night
You know the name, name
Listen to that rain, rain
