

Flatline

BEXEY

(MTM, hit em with the heat)

She brought confusion to my world and I don't need that
Drugs made me paranoid
Everyday I sleep less
Noises from the other side
Heartbeat increase
I don't need another life
I'll just get it right, then leave

Never believe them if they say that they my rival
Had one enemy now he's buried
p*ssy no longer alive
And I'd bet that they'd love me shouting to the camera
Spazzing out online
But arrogance and jealousy
No, they never been a trait of mine
Every move precise, like a laser line
Bitch I take my time
When you comfy in your own skin
Then the hate is fine
My brain was frying slowly from the addiction
Had my cells burning
Throwing up my stomach lining
Dying as the world turning
I ain't afraid to be lost in this world
'Cause I'm forever searching
More afraid of being the same
And stuck in the same place, never learning
She picture perfect
Centerfold flawless
That's just the outside
But you don't wanna taste poison

She brought confusion to my world and I don't need that
Drugs made me paranoid
Everyday I sleep less
Noises from the other side
Heartbeat increase
I don't need another life
I'll just get it right, then leave

She brought confusion to my world and I don't need that
Drugs made me paranoid
Everyday I sleep less
Noises from the other side

Heartbeat increase
I don't need another life
I'll just get it right, then leave

Let me wait another year or two
To finally make that phone call
I'mma let you have your fun
And f*ck about around with karma
Like you supposed to
See, karma is a bitch

If you approach her the opposite way, I told you
Arrogance, the shovel that's digging the deep hole for you
Look, karma is my darling, my madam, my misses, my mistress
My bitch is a ride or die princess
Glock 9 tucked inside the Chanel vintage dress
Poison on her lipstick
Go kiss her then, you dumb bitch
Quietest one in the room, but I'm with all that f*ck shit
I nearly got pulled inside of a car when I was only 6
Father taught me young, how to escape from a grab on the wrist
I ran home, then they went scouting, searching for that whip
That's the only time I seen a man get beat to death

She brought confusion to my world and I don't need that
Drugs made me paranoid
Everyday I sleep less
Noises from the other side
Heartbeat increased
I don't need another life
I'll just get it right, then leave

She brought confusion to my world and I don't need that
Drugs made me paranoid
Everyday I sleep less
Noises from the other side
Heartbeat increased
I don't need another life
I'll just get it right, then leave
