

Hi Rolla!

BEXEY

MTM, hit em with the heat

Unapologetic energy when I step
Focused in this bitch
I don't recognise regrets
Get it done and I roll, ah

This ones a hard hitter
Stains on my grills from drinking the dark liquor
If you ain't a two-faced hoe
Why'd you bring your mask with ya?
You good at hiding shit
Yeah it's hard to work you out
I was in Japan, I let you be the little talk of the town
Demons surround when i'm walking around
Ha, a small amount
No, I don't believe a word you say
But it's the thought that counts
I bring the thunder to your town
Then I pour it down
Say it with my chest
And I say it loud
Nothing they say resonates
They liars, liars
Hot steppa I let the flames on the fire get higher
Bitch, you know I dance through the flames
You can't do the same til you break that mask off your face
You ain't gonna change

Unapologetic energy when I step
I'm focused in this bitch
I don't recognise regrets
Unapologetic energy where I step
I'm focused in this bitch
I don't recognise regrets
Get it done and I roll
Get it done and I roll
Get it done and I roll
Get it done and I roll
Get it done, then I roll
Get it done, then I roll
Get it done, then I roll
Get it done, then I roll

Get it done and then I roll

California smog, filling my Lungs
