

Lost Somewhere Above

BEXEY

Tell me what you wanna do
If we don't get lost, how will we find a new way?
Let's get lost, somewhere above
I don't know where to go, so that's perfect let's roll
Tell me what you wanna do
If we don't get lost, how will we find a new way?
Let's get lost, somewhere above
I don't know where to go, so that's perfect let's roll

My eyes glare like bike lights, up in the night yeah
Red wine, two glass, with a bunch of ice there, I'm right here
Bitin' on ya dick, vampire flex
Ridin' on my dick, fuck the stress up out ya life bitch
I'm exhilarated by the way you speak
Actually infatuated by your anime-looking physique
Lookin' like you crawled outta my screen, I'll give you a ring
I know this'll fade away, when the morning is here
We so lost, forget the path let's make a new one
That nobody stepped on, it's untouchable
Sometimes I really love to fall
In nothing at all
I climb higher than what was possible before the fall

Tell me what you wanna do
If we don't get lost, how will we find a new way?
Let's get lost, somewhere above
I don't know where to go, so that's perfect let's roll
Tell me what you wanna do
If we don't get lost, how will we find a new way?
Let's get lost, somewhere above
I don't know where to go, so that's perfect let's roll
