

Mirror on the Wall

BEXEY

Everyone making me feel like an idiot
I'm not the same as everyone, yeah, I'm okay with that
I can take you away up to where I am and see this place I'm at,
you just won't make it back
No I won't [?] no baby I'm good
Everybody making me feel like I'm on my own, misunderstood
Everybody thinking I was [?] I ain't judge no book
Too occupied in my mind step back do you want me loose?
I feel like a mime sometimes are these boxes really around me
I try to climb outside of the [?]
There's so much happening in my head, I shut my eyes go deep in
side, don't want me no where else
I feel like I'm [?] all these boxes [?]
I try to climb outside of the [?]
There's so much happening in my head, I shut my eyes go deep in
side, don't want me no where else

I've got the determination of a skater
Been breaking bones trying to climb these steps

But [?] won't take me for a bitch
I'll take [?] I could break your ribs
Yeah my big brother really thinks I'm weird, looks me up and do
wn, lots at what I wear
But he'll kill for me if they want to take it there
I got soldiers in the shadows where I live

Said I feeling like a villain not a hero
Taxi driver [?] when I'm looking in the mirror
He's talking to me, I mean talking to we
I see multiple people [?]

Oh staring at the ceiling everything's so different (Different)
I need someone to listen so I talk to the mirror

Mirror on the wall
Feel like an alien on this world
Whatever I say they don't understand
And those that do take my f*cking life
Mirror on the wall
These girls wanna f*ck and yeah that's cool
To be real had enough because my energy is too precious to be w
asted on anyone
