

# MOLOTOV LOVE

BEXEY

I am just another planet that used to be still  
'Cause of your light, I started moving for real  
And it took pain and love to set that in motion  
And I'm grateful  
'Cause I love you, I adore you  
And in times when it don't seem like it  
You know deep down I appreciate you  
I will fill your voids with my love as much as I can  
See you soon with your heart in my hand

To keep it real, I'ma never fix the gap in the teeth  
Why?  
Subtle reminder when I smile, luck is on my side  
Rock me, sway with me  
Courvoisier sipping  
Licking up on her pussy till I'm getting her shape shifting  
Bass kicking, vibrate, silk sheets create a wave  
Lifeguard, I'ma dive deep then save her day  
Leave the lingerie, I don't wanna play  
Want you in your purest form, ruin all the makeup up on ya face  
Go and get it redone in the morning, that's a minor  
I'm soul taker, rearrange her, hypnotiser  
She don't want hero to rescue and untie her  
She want a real super villain to get up all behind her  
So I'ma play the role  
You're the addictive game and I'm the controller  
Pressing on all your buttons, memorised the cheat codes  
I don't press pause  
Girl, go with the flow, yeah

I told you I'll see you when I can  
Hope you understand  
What it takes to grow up from a boy to a man  
I said I'll see you when I can  
See you, see you when I can  
See you when I can  
See you, see you when I can

I told you I'll see you when I can  
Hope you understand  
What it takes to grow up from a boy to a man  
I said I'll see you when I can  
See you, see you when I can  
See you when I can  
See you, see you when I can

Better later than never, I'll be there in a second  
Don't quote me on it 'cause my sense of time right now is a mystery  
I got places I need to be  
People that I need to see  
Conversations with strangers when I don't wanna speak  
Selectively social, they don't know me like you do  
Oh, may weather shoulder roll  
Brush 'em off so smooth  
Get rid of ya lies now  
Cut off all the lights out  
When the time runs out

Ooh, it's just me and you

I told you I'll see you when I can  
Hope you understand  
What it takes to grow up from a boy to a man  
I said I'll see you when I can  
See you, see you when I can  
See you when I can  
See you, see you when I can

I told you I'll see you when I can  
Hope you understand  
What it takes to grow up from a boy to a man  
I said I'll see you when I can  
See you, see you when I can  
See you when I can  
See you, see you when I can
