

Nightmare City

BEXEY

You think you're okay
Laying in the sheets, crying about me
Lies slip through the gaps in your teeth
I feel no pain
I delete memories
No way
Don't try hold me down
I'll always fall if I slip, but you'll die if I trip
So I'm ten toes down with my feet on the ground
No way
Don't try hold me down
I'll always fall if I slip, but you'll die if I trip
So I'm ten toes down with my feet on the ground

My shadows stand under me
So it understands I don't have no friends
I don't do pretend
Sucking on a razor blade when you say my name
Blood all in your face
Paradise in a horror scene
Oh my, oh my
Sometimes I seem to lose my mind
I'll cruise on by like a ship in the night

I don't give a fuck bitch I'm alone now
Strolling 'round London feel like a ghost town
Baby I'm a outcast tell me what you know bout me
You wouldn't know a damn thing cause you with everybody
You with everyone, you don't even know yourself
You told me I would never see you with nobody else
I thought I saw bout 20 of you back in Hollywood
I'm gone for good
Bexey stay flexin' like I probably should be

You think you're okay
Laying in the sheets, crying about me
Lies slip through the gaps in your teeth
I feel no pain
I delete memories
No way
Don't try hold me down
I'll always fall if I slip, but you'll die if I trip
So I'm ten toes down with my feet on the ground
No way
Don't try hold me down
I'll always fall if I slip, but you'll die if I trip
So I'm ten toes down with my feet on the ground
