On The Low

BEXEY

Tonight, I pulled up to [?]. But this girl on my old street, she was just on clouds-fucked up. And you know, she gave me her Instagram and everything, but I think she was living in a club
But I mean-like, that's-like-none of-like-your business or-like-his business-like-that she's-like-on-clout-and-like-she doesn't like running out in it
Fuck it, you're right

I know that you'll ask
Wanna know what we doin'
Turn my back, givin' all the love
'Cause they love me much, whoa

Keep it on the low
Everything we do
And they ain't gonna know
About me and you

Keep it on the low
Everything we do
And they ain't gonna know
About me and you

Keep it on the low
Everything we do
And they ain't gonna know
About me and you

Everything's changed;
If you did it on purpose, you'd fuck it up
We'll be okay
We'll know what to say
You clean-up the memories
And I just grip on your (rights) [?]
And kiss on your face
(The queen of melodies)
So I know what ya wanna say
Don't wanna seem shadow-ay
Why you do this to me?

Baby, I can lay
Show me what's new
Got your finger on your dick
Baby, gotta let it go
You hung a ruler in my chest
Foolish me, what is love
Hon, you ain't no cutting me
Yeah, I'm coming real soon

Leave you alone

Keep it on the low
Everything we do
I hate to say
I have someone new

I know that you'll ask
Wanna know what we doin'

Turn my back, givin' all the love
'Cause they love you back, whoa

Keep it on the low
Everything we do
And they ain't gonna know
About me and you

Keep it on the low
Everything we do
And they ain't gonna know
About me and you

Keep it on the low
Everything we do
And they ain't gonna know
About me and you
