

Reflection Eternal

BEXEY

I don't know who to trust now
How many times I've been let down
Exhale blow the stress out
Inhale feeling blessed now
Steady picking up her past
Trust issues
Everybody got trust issues
But today that's not true
Tell me what happened
I don't need to know what happened

I don't know just what to say to you
Cause you the same as all the other players in this game alive
(Tell me where did you go)
I used to love the mystery
About you
But that disappeared
And now you got a desperate look up in your eye
(Tell me where did you go)

If you watch me jump
You can't fly with me
I made these wings go higher - see

If you watch me jump come fly with me
I made these wings go higher - see
I vibrate on her frequency's
But with my eyes shut tight
I see everything
I'm out of place now I don't care bout fucking bitches
Disrespect me I make your girl wash your backseat
Now they never listen
Till they learn their lesson
That's not my problem
Go head go soften
And if you wana take it to the next level then be honest
One phone call we'll have your buried in a forest
No brother don't play
Say his name up where I live
Anybody and everybody will move up out your way
No hesitation
I got things I can't say man
Don't even like thinking bout what I'm playing
But that's another story
On a single page
Don't judge them books by their covers
No way
