

# REVOLVING DOOR

BEXKEY

Like a revolving door  
It come back around  
I told you before  
You get what you put out  
Air mattress on the floor, world wide tours  
Don't be scared if you here when the night falls

When push come to shove you in trouble  
Could you take a grave for me if I get you in trouble  
So baby I love you  
Brush it off of his shoulder when they're comin' in  
Wipe that smirk off your face in front of you  
Push me to up in the edge and say sorry  
Hadn't said much, it ain't not like its nothing for me don't worry  
They say don't die or die empty  
Nothing left to give  
No more cups to fill  
No more tears to shed  
No more cuts to heal  
No more bills to pay  
No more love to give  
No more breath to take  
No more drugs to feel  
No myself to hate  
Another late night, I don't know where to go  
Lost all alone in a lonely world  
Too many long nights tryna wrong my rights  
Problems on my mind

Like a revolving door  
It come back around  
I told you before  
You get what you put out  
Air mattress on the floor world wide tours  
Don't be scared if you here when the night falls  
(Don't be scared baby)  
(Here when the night falls)  
(He-Here when the night falls)
