

Spooky Electrick

BEXEY

Yeah Yeah Yeah Yeah
Leave me alone
Please leave alone

Leave me alone
I wanna get higher
Me and my iPhone both stay on silent
Leave me alone
I wanna get higher
I got my eyes closed thinking 'bout dying
Asking me if I'm blind 'cause I wear glasses too much
Cut up under my tongue from eating p*ssy too fast
Cause I wear glasses too much
Cut up under my tongue from eating p*ssy too fast
Stab proof vest on my chest no tank top
Too many nightmares finna get stabbed up
What I'm wearing expensive, get your hands off
Livin' in the movie but you never cut the sound off
f*ckin' with the town up sound off
Flowing like Fortnite oh my really finna ground up
I don't want a miracle, my crown's up
They tryna' put spikes in my back like Bowser

I got demons
You got demons
She got demons
We got demons
Keep em a secret for a reason
Angels tryna' to guide me the right way
Demons tryna' put a bullet in my brain
I got demons
You got demons
She got demons
We got demons
Keep 'em a secret for a reason
Angels tryna' guide me the right way
Demons tryna' put a bullet in my brain

In my brain
Drain the liquor it might numb the pain

Different day, same shit it's like this everyday
Sold out shows, make it rain hell then I bounce home
Valentinos cost more than your wardrobe
You got fake grills, better keep your mouth closed, talking like a side hoe
I ain't got enemies, they all just stuck with the jealousy
Your body language say you scared of me
Don't be acting like some kind of friend of me
f*ck you and that energy
I can't really hear a thing that they be tellin' me
I got demons in my head they try killin' me
I don't know if I'm gonna be here in a couple days, couple years, couple weeks
Do I really wanna leave?

I got demons
You got demons

She got demons
We got demons
Keep 'em a secret for a reason
Angels tryna' guide me the right way
Demons tryna' put a bullet in my brain
I got demons
You got demons
She got demons
We got demons
Keep 'em a secret for a reason
Angels tryna' guide me the right way
Demons tryna' put a bullet in my brain

I got demons
You got demons
She got demons
We got demons
The whole world got demons
Heaven is two steps forward
And hell over your shoulder
Bitch
Ha Ha Ha Ha Ha Ha
