

TEST YOU

BEXEY

We can take a cruise in the Cadillac
And you can be mine for the next 8 hours
I'ma drive you home he can have you back
And I'll still be around when it all falls down and
Baby why'd you talk so loud ahh
No I can't keep you around ahh
I don't wanna hear no sound nah
Shut the door on the way out ahh

Chanel perfume lingers
I miss that girl but I miss me more
I spin the world round on my middle finger
I miss that girl but she with everyone else
I wish that I could keep her in my arms for myself
But keeping her around damaging for my health
Brudda said focus on the wealth not the girl
Focus on the way you're impacting the world
Liking your pictures I hate all this distance
You shouldn't be round them cause they don't respect you
Told you to call me I'll be there to listen
A shoulder to lean on, I'll be your protection
Uh you special. I get you
Daydreaming of the time that I first met you
Uber to ya house took my shoes off at entrance
You been in my brain everyday I cant forget you
You ain't gotta hide your phone
baby I don't care who text you
Left you in the room with my brudda just to test you
I won't ever meet another, I'll meet you where I left you
And we can be back at square one
My baby I miss you

Make me feel like everything I think is wrong, what the fuck, did we do
Feet up, beverly hills view
Nothing is the same when I ain't around you
I'm the one to blame, yea I know I know that shits true
Over complicated, a little crazy too
You ain't gotta hide your phone baby
I don't care who text you
Left you in the room with my brudda just to test you
I won't ever meet another, I'll meet you where I left you
