

Twilight

BEXEY

I do it my way, everything I do
They seein' my name everywhere they look
Look at me sideways when they see me lose
They want some more woah, oh, oh, oh-oh-oh, no way
(No way, yea)
No way
(No way, yea)
No way (no way) hey, hey
No way, ay, ay

Run a body, in my way, yeah
In my lane, I'm going my space, yeah
Louis ways, Gucci shades (Gucci shades)
You know my name, I rose in vain
Roamin' round in the heavy rain
Remember didn't have no game and they won't let me play
Oh, now you wanna be all next to me
I might forget your name, karma protecting me

My mouth so dry from the wine but yo bitch pussy wet
You wan' go back up in time because I look so fresh
They stop like "Who is this?"
Ooh my kicks, shine like twilight 'round my skin
Zoomin' bitch
Everything all black except for who I'm with
Oh what we bout to do
No you don't have one clue
And our blood costs my goons
I'm in new ride, so smooth

I do it my way, everything I do
They seein' my name everywhere they look
Look at me sideways when they see me lose
They want some more woah, oh, oh, oh-oh-oh, no way
(No way, yea)
No way
(No way, yea)
No way (no way) hey, hey
No way, ay, ay
