

VERMIN!

BEXEY

Yeah, you know you dead to me, but I still wish you well
My darling, you best believe I'ma do this by myself
Anger like drinking poison, hope it hurts someone else
I'm guessing it's the moment I take control of my world
And it's a long road home
Overload, I wanna be alone
And it's a long road home

What you don't appreciate will be taken away
Don't abbreviate your dreams to fill in a smaller brain
Alleviate the pain and proceed to seize the day
Fuck up out my face

Follow the moonlight home
Someone somewhere, looking directly at it now to
I know what you're going through
Someone somewhere, right now listening feels just like you

Yeah you know you dead to me, but I still wish you well
My darling, you best believe I'ma do this by myself
Anger like drinking poison, hope it hurts someone else
I'm guessing it's the moment I take control of my world
And it's a long road home
Overload, I wanna be alone
And it's a long road home

Vagabond in Saint Laurent
Trusting my intuition
I traveled long, had some stops
Reassess the mission
If you don't know which destination you're sailing to
Then no wind is favorable

Hmm, play it cool
Start where you are, make a move
You ain't breaking no rules, you make your own
Taking no shortcuts, you roam
Where you're please, you ain't alone
You got everything you need
Everything you see, ain't always what it seems
You ain't done growing, there's nothing that you can't reach
Yeah, yeah, oh yeah, oh yeah, oh yeah
Nothing that you can't reach
