

# Disappear

Beyoncé

If I begged and if I cried  
Would it change the sky tonight?  
Would it give me sunlight?  
Should I wait for you to call?  
Is there any hope at all?  
Are you drifting by?

When I think about it  
I know that I was never there or even cared  
The more I think about it  
The less that I was able to share with you  
I try to reach you, I can almost feel you  
You're nearly here  
And then you disappear  
(Disappear, disappear, disappear)  
You disappear  
(Disappear, disappear, disappear)

And then I lie all by myself  
I see your face, I hear your voice  
My heart stays faithful  
And time has come and time has passed  
If it's good it's got to last  
It feels so right

When I think about it  
I know that I was never there or even cared  
The more I think about it  
The less that I was able to share with you  
I try to reach you, I can almost feel you  
You're nearly here  
And then you disappear  
(Disappear, disappear, disappear)  
You disappear  
(Disappear, disappear, disappear)  
You, you disappear

I missed all the signs  
One at a time  
You were ready  
What did I know  
Starting our lives  
Now my love, I'm ready to shine

When I think about it  
I know that I was never there or even cared  
The more I think about it  
The less that I was able to share with you  
I try to reach you, I can almost feel you  
You're nearly here  
And then you disappear  
You disappear, you disappear  
You disappear, disappear
