Beyoncé

nene man ni!  
Aa! dennin! k'an ben sogoma!  
nene man ni!  
Aa! dennin! k'an ben sogoma!  
Aa! dennin! k'an ben sogoma!  
Aa! dennin! k'an ben sogoma!

I know my enemy prey on me, so pray for me  
Tick, tick, wait on it  
I'm keepin' down my body count  
I'm finessin' like a trap bounce, a trap bounce, yeah  
'Cause every day above ground is a blessing  
I done leveled up now, view panoramic  
None of my fears can't go where I'm headed  
Had to cut 'em loose, not lose, break the levy, yeah  
I'm 'bout to flood on 'em, flood on a sinner  
The rain and thunder, go Mutumbo, no, no center  
You can't dim my light

'Cause when we walk up in the club  
I need them sirens goin' off  
Then we can look up in the sky  
The tears we cry let us know that we alive, yeah, yeah  
It give me goosebumps every time  
I threw up my diamond  
Together we're big timin'  
Don't make me have to remind ya

I got my cup up to the heavens  
Another night I won't remember  
Promise this my mood forever  
Promise this my mood forever and ever  
Diamonds dancin' on the bezel  
It's kinda feelin' unforgettable  
Promise this my mood forever  
Promise this my mood forever

Forever and ever  
(You heard that?)  
Forever and ever  
(That's the sound of the price goin' up)

Forever, and ever-ever, and ever-ever (Yeah, yeah)  
At the Saxon Madiba suite, like Mandela (Yeah, yeah)  
Bumpin' Fela on the Puma jet, like we from Lagos (My daughter)  
Mansa Musa reincarnated, we on our levels (He 'bout business)  
That's a billi', a thousand milli'  
First one to see a B out these housing buildings  
I be feelin' like Prince in '84 (Ow)  
Mike in '79, Biggie in '97, '94 Nas  
Ali bomaye, no kumbaya  
Just give me the Somalia (I got it), I'm on La Tâche  
Helmet, on a jetski, you know the vibes  
Hit my head, forget I'm me (I love it), oh my God  
Without the God in the XY (Yeah, yeah)  
I'm afraid the whole game would be colonized (Yeah, yeah)  
The marathon will be televised for N.I.P.

'Cause true kings don't die, we multiply, peace

I'm so unbothered, I'm so unbothered  
Y'all be so pressed while I'm raisin' daughters  
Sons of empires, y'all make me chuckle  
Stay in your struggle, crystal blue water  
Piña colada-in', you stay Ramada Inn  
My baby father, bloodline Rwanda  
Why would you try me? Why would you bother?  
I am Beyoncé Giselle Knowles-Carter  
I am the Nala, sister of Yoruba  
Oshun, Queen Sheba, I am the mother  
Ankh on my gold chain, ice on my whole chain  
I be like soul food, I am a whole mood

When we walk up in the club  
I need them sirens goin' off  
Then we can look up to the sky  
The tears we cry let us know that we alive, yeah, yeah  
I give 'em goosebumps every time  
I throw up my diamond  
Together we're big timin'  
The children are our reminder

I got my cup up to the heavens  
Another night I won't remember  
Promise this my mood forever  
Promise this my mood forever-ever  
Diamonds dancin' on the bezel  
It's kinda feelin' unforgettable  
Promise this my mood forever  
Promise this my mood forever

Forever and ever  
Ever, forever  
Forever and ever  
Ever and ever and ever  
Time to break it down now

All praise to  
My enemies still praise  
Get along  
'Cause I've been all myself  
I'm dancin'  
Ancestors in my step  
Now I move better, ooh  
And I live on, on  
I feel a change goin' on  
Royalty in my blood, run the kingdom  
The more money, more problem season  
But don't nothin' get you out your way  
Rise up higher  
Jump, jump and don't look down  
You're so far from the ground  
You're way...

I got my cup up to the heavens  
Another night I won't remember  
Promise this my mood forever  
Promise this my mood forever-ever  
Diamonds dancin' on the bezel  
It's kinda feelin' unforgettable  
Promise this my mood forever

Promise this my mood forever  
Forever and ever
