

## Once In A Lifetime

Beyoncé

This is just another day that I would spend  
Waitin' for the right one.  
Staring at the night and wishin' I could be the one  
To feel the warm sun.  
You're a dream, but I'm wide awake  
I'm in Heaven, for heaven sakes  
So get ready, (get ready) I'm ready now (get ready)  
I could never need you more than now

You were worth waiting for  
You the one that I adore  
Hold on to me tight  
For once in my life  
You were worth waiting for  
You the one that I adore  
This kind of love you'll only find  
Once in a lifetime, once in a lifetime

Tell me that your living in a place  
Where no one else can find you.  
Tell me that your singing out my name,  
Hoping that I'll hear you.  
Tell me "No" and I'll fade away,  
But this is lovin that I won't waste  
So get ready, (get ready) I'm ready now (get ready)  
I could never need you more than now

You were worth waiting for  
You the one that I adore  
hold on to me tight  
For once in my life  
You were worth waiting for  
You the one that I adore  
This kind of love you'll only find  
Once in a lifetime, once in a lifetime

What are the words, I'm needin' to hear  
How do I know if I'll ever love again  
Seeing your face makes everything clear (clear) clear  
And I will never be the same

You were worth waiting for  
You the one that I adore  
hold on to me tight  
For once in my life  
You were worth waiting for  
You the one that I adore  
This kind of love you'll only find  
Once in a lifetime, once in a lifetime
