I wonder how it, how it went so wrong
It's been so dark, yeah, I wanna say my last goodbyes
And I'll be gone for good
Left you guys behind, now I'm so lonely, so lonely, ooh

In the jungle, ain't no bible
Showtime, showtime, no recital
Show no fear, boy, where's your spinal?
Where's your backbone? Where's your pyro?
I had to be everything you couldn't be for my survival
My own idol, skipped my trial
Took my rightful, rightful title
No remorse, the sin is final
I found all my own disciples
I'm too far gone, downward spiral
No white angels, just albinos
Check my eyes, man, they're all white, man
Roll them back now, where'd the light go?
Guess it died, so cold like Cairo
Crack my neck back like I'm the chiro

I want your world at my feet
I want your world at my feet
I've waited too long for this
I've waited too long for this
I want them to bow down to me
I want your world at my feet
I waited too long for this
I need this like oxygen

Sorry, sorry
My whole family, I
Slayed you, betrayed you
Don't you grow to be like me
I wanna sink into the darkest sea
Darkest sea, eeh, ooh

Hebe, Usuthu, Hebe, Usuthu
Hebe, Usuthu, Hebe, Usuthu
