

# Stop That!

Beyoncé

[B] Yo where the brother by my side at?  
[M] Yo you really need to stop that  
[B] Get it right!  
[M] It's not even like that  
[B] Try to get a job before we livin on a box flat  
[M] Put it on that and here's ya demo you can shop dat

It's funny how things turn around  
Last night you tryna get down you act like you down  
Any other time it's like you steady hatin on Brown  
I'm tryna see my name in lights you tryna short it out the ground

You're the one that's got it twisted cause I'm right by your side  
I had a bad day you jumpin' on my back for a ride  
What can a man say I'm on the run, just for your audition  
Callin on you every night it's like you never listenin

You're the one that's switchin up gettin to specifics  
When you say that I'm just dreamin I be rollin like a Michelin

Carmen you just trippin cause you know I love you infinite  
Just so we could be here look at everything I did for this

So why you actin like that  
You don't have to take it anymore fight back  
I came too far to turn around and just hike back  
Trying to get me sidetracked see me on the corner where the sign of the time at

And yo I came from the projects now I want the condos  
Trying to be a star and now you messin up my cosmo

But you can't find something if you walkin' wit a blindfold  
Carmen I can see right through you with my eyes closed

[B] Grown man to finance  
[M] You actin like a nuisance  
[B] You're the one that's in the club and tryin to do a new dance

Songs you got me singin like my name was Bobbly Blubland  
Don't make me sing 'em cause the game you playin baby two can
