

# Waiting

Beyoncé

Waiting, waiting, waiting, waiting  
Waiting, waiting, waiting, waiting  
Waiting, waiting, waiting, waiting ooh  
Waiting, waiting, waiting, waiting

It's 6 o'clock  
And seconds feel like hours as I sit here  
And watch them tick away

And just the thought  
Of seeing you again I wanna sing  
I've been longing for this day

I'll be waiting  
'Cause I can't smile untill I see your smile  
I'll be waiting  
There's nothing else that I would rather do  
I'll be waiting  
'Cause I can't sleep until I hear your heart  
I'll be waiting  
'Cause patiently I'll wait right here for you

Waiting, waiting, waiting, waiting  
Patiently I'll wait right here for you  
Waiting, waiting, waiting, waiting  
Patiently I wait

12 am  
The crowd is getting thin but it's okay  
'Cause I'm not here for them  
No

I refuse  
To move from the spot  
Until I feel your heart  
Pressed against mine again  
I'm waiting!

I'll be waiting  
'Cause I can't smile until I see your smile  
I'll be waiting  
There's nothing else that I would rather do  
I'll be waiting  
'Cause I can't sleep until I hear your heart  
I'll be waiting  
'Cause patiently I'll wait right here for you

I don't care how long it takes  
I don't mind I'm alright I'll sit and wait  
'Til the sun comes down and rise  
And come right back up again  
You're the best thing that's happened in my life  
When your ass in the bar is in my life  
And it just ain't right  
So take as long as you like  
I'm waiting

Waiting, waiting, waiting, waiting (4x)  
I'm waiting

I'll be waiting  
I can't smile until I see your smile  
I'll be waiting  
There's nothing else that I would rather do  
I'll be waiting  
'Cause I can't sleep until I hear your heart  
I'll be waiting  
'Cause patiently I'll wait right here for you

I'll be waiting  
I can't sleep until I hear your heart  
I'll be waiting  
There's nothing else that I would rather do  
I'll be waiting  
'Cause I can't sleep until I hear your heart  
I'll be waiting  
'Cause patiently I wait right here for you

Waiting, waiting, waiting, waiting  
Patiently I wait right here for you  
Waiting, waiting, waiting, waiting  
Patiently I wait  
Waiting, waiting, waiting, waiting

Waiting, waiting, waiting, waiting
