

## Algorhythm

## Beyond Creation

Tic Toc we heard the clock regain  
The pendulum has finally moved again  
Inactive for so long  
Dreams were confined to a generic delusion  
Sinking into obsolescence  
There was nothing left to inspire our subsistence

As the Algorithm transcended  
We can now redefine our progression  
Embracing the uncharted  
Abstracting the relics into oblivion

Everlasting minds  
Please liberate the hidden light  
And shine upon us  
As we reinvent our contrivance  
And fix this miscalculation

As the Algorithm transcended  
We can now redefine our progression  
Embracing the uncharted  
Abstracting the relics into oblivion

Gradually reconstructing our future  
We'll seek for new elements  
To ascend the enigma of life  
And unify our existence through earth and universe
