

## And... You Will Die

**Beyond Fear**

They talk about you and you don't care  
The things they tell us, We must beware

Out in the darkness you take your prey  
You rape and kill them, That's what they say

CHORUS

Just who are you, You cannot hide  
They will get you and you will die

Why do you do this, You're just insane  
You have no feelings, You feel no pain

Repeat CHORUS
