## **Coming At You**

**Beyond Fear** 

Do you see it, do you see it Do you see it, it's coming at you Do you see it, do you see it Can if feel it, it's coming at you

Do you see it, can you feel it Coming at you, making you sick Look around, what do you see A world of lies and misery

It knows what's in your head All your thoughts that's never said A disease, it's all around Just a shadow without a doubt

You've seen my people around you die No rhyme or reason to say good bye

On the ground or in the air Maybe cancer to spread fear It's own god, it's own religion Taking life, it's addiction

It's in church, it's in your schools Teaching something you can't learn You're not safe, young or old for death's coming, so I've been told

Do you see it, do you see it Do you see it now, It's coming at you
