

Fall Into The Flames

Beyond The Black

The darkest night, can't close my eyes
Sleep is weak
I'm hypnotized, it's do or die
I feel your heat
I think it's time to tear through these chains

We're gonna fall into the flames and everglow
Yeah, we're gonna fall into the flames, I feel the smoke
Breathe it in, we can't stop, there's no running
Can't stop, almost burning
Fall into the flames and everglow
You're my everglow

I see the fire spread, two silhouettes
Sinking deep, inside my chest is a world below
They say we're self-destructing
But hell we gotta do something
Nothing, oh nothing
Doin' nothing
Is never gonna break through these chains

We're gonna fall into the flames and everglow
Yeah, we're gonna fall into the flames, I feel the smoke
Breathe it in, we can't stop, there's no running
Can't stop, almost burning
Fall into the flames and everglow
You're my everglow

Tonight we're raging inside
All we know, all we know tonight
Is that we're raging inside
Inside, inside
The darkest night, can't close my eyes
Sleep is weak

We're gonna fall into the flames and everglow
Yeah, we're gonna fall into the flames, I feel the smoke
Breathe it in, we can't stop, there's no running
Can't stop, almost burning
Fall into the flames and everglow
You're my everglow
We're gonna fall into the flames and everglow
Yeah, we're gonna fall into the flames, I feel the smoke
Breathe it in, we can't stop, there's no running
Can't stop, almost burning
Fall into the flames and everglow
You're my everglow
