

Ravens

Beyond The Black

Standing at a
Point of no return
Will it be now or never?

Looking back as
All the bridges burn
And you pray for the better

Good days, memories
Call from far away
We were always together

Bound by spirit
We will find a way
'Cause we're birds of a feather

When we fly we're unstoppable
Endless sky - all is possible
We spread our wings, we're soaring high
We kiss the clouds

When we fly we're unstoppable - unstoppable

Ooh - like ravens
Ooh - like ravens

Shadows, darkness
But we keep the flame
Our bond is unbroken

Trust and loyalty
We believe the same
Silent words are unspoken

Myths and legends
Our tales are told
They'll be with us forever

Wise and knowing
We are free and bold
We are birds of a feather

When we fly we're unstoppable
Endless sky - all is possible
We spread our wings, we're soaring high
We kiss the clouds

When we fly we're unstoppable - unstoppable

Ooh - like ravens
Ooh - like ravens

Ooh ooh

When we fly we're unstoppable
Endless sky - all is possible
We spread our wings, we're soaring high

We kiss the clouds

When we fly we're unstoppable - unstoppable

Ooh - like ravens

Ooh - like ravens

We are ravens
