

## Still Breathing

## Beyond The Black

Still breathing  
You cold skin is wrong  
And I know it's over  
'Cause I'm bleeding  
I guess the medicine is gone  
I'm sorry that I'm leaving

I'm sorry

I'm sorry now, I see it clear  
For the first time  
And for the last time  
You were the painkiller  
Now it's coming real  
For the first time  
And for the last time  
You were the painkiller

It's the same world  
But now I feel the hurt inside  
It goes on and on and on  
Sometimes the right words  
Can turn eyes that blur to life  
Those days are gone, they're gone, they're gone

I'm sorry

I'm sorry now, I see it clear  
For the first time  
And for the last time  
You were the painkiller  
Now it's coming real  
For the first time  
And for the last time  
You were the painkiller

What's a girl to do for one last hit  
I'm a wasted lover and I need my fix  
Oh what's a girl to do for one last hit of love  
I'm sorry now

I'm sorry now, I see it clear  
For the first time  
For the last time  
You were the painkiller  
Now it's coming real  
For the first time  
And for the last time  
You were the painkiller
