

# Hateworld

## Beyond the Void

She's been here with me today  
Don't worry, there's not that much left to say  
With her hate she gave me faith and I'm sorry, I no longer feel  
betrayed

And nothing ever comes to me  
When I feel shattered up and all these things won't answer me  
When I want them to stop

I'll never live until it's over  
Over me

Yes, I hate the world today  
Don't worry, someone's there to take my place

And nothing ever comes to me when I feel shattered up  
And all these dreams won't answer me  
When I want them to stop

I'll never live until it's over  
Over me  
Whatever made me stay  
It's all coming back to me  
The hate, the blame  
A perfect ending

She's been here with me today  
Don't worry, there's not that much left to say  
Whatever made me feel it's you  
Well, I'm sorry, guess I've been just lying, too

I'll never live until it's over  
Over me  
Whatever made me stay  
It's all coming back to me  
The hate, the blame  
You never changed  
And it's too late... too late...

Feels like it is over, feels like it is over  
Feels like it is over... over...  
Over me
