

# Unwanted

Beyond the Void

Where are we?  
I wish I couldn't tell  
Grey is the dawn  
Many miles from home  
And they... they weigh a world

All for naught  
For not being heard  
I watch it race by  
Every meaningless mile  
That is wishing us dead

(As) we're unwanted  
Still we're here  
We're unwanted  
Anywhere

Anywhere  
They made us feel at hell  
An hour of pain  
For every minute of fame  
We only know from stills

Rejoice  
We have brought you song  
Stripping a soul  
For remote controls  
And a stifled yawn

(As) we're unwanted  
Still we're here  
We're unwanted  
Anywhere

So far away from anything  
That I'll ever belong to  
We are legion  
And there's no-one to turn to  
(And there's no-one here)

We're unwanted
