Dance With The Dead

Beyond Unbroken

I'm havin' so much fun
Living inside my anger
It's got me by the tongue
And, no, I can't contain it

I'm like a loaded gun
Won't stop until it's over
I'll take you to my grave and walk away
Before they ever

Try to change me
Your mistake

Please, don't wake me from this goddamn nightmare
Can you see all the chaos in my head?
And you can think I'm going nowhere
Only feel alive while dancing with the dead
With the dead

This music is in my blood
A symphony of darkness
It ain't for everyone
And that's OK now
Drop dead for us all

This show will never end
(Your end)
We live inside your head
(Your head)
Again, it's like I said
Just go ahead and drop dead for us all

Try and change me
Your mistake

Please, don't wake me from this goddamn nightmare
Can you see all the chaos in my head?
And you can think I'm going nowhere
Only feel alive while dancing with the dead

With the dead
With the dead
With the dead
Dance

Dance with me
In misery

Dance with me
Dance with me

Please, don't wake me from this goddamn nightmare
Can you see all the chaos in my head?
And you can think I'm going nowhere
Only feel alive while dancing with the dead

With the dead
