

Smoke

Beyond Unbroken

Write my name, write my name in smoke
Driving fast and watching life unfold
Pull me back, pull me back I'm gone

You don't ever wanna see me at home
Take it back, take it back, Oh no
Leaving me out in the crowd alone
Treat me like, treat me like I'm gone
You don't ever wanna see me at home

You be asking why, I be telling you, you know
Call me when you feel alone
Don't expect to hold me down for sure
Cliffside asking why, you know
I don't wanna feel so cold

Tie me up, tie me up you know
Make me feel like this is real, don't go
Base boards creeping 'round no more
You don't ever wanna see me at home
Lie to me, lie to me so low
You're just asking for attention, you know
Take yourself, take yourself and go
I don't ever wanna see you come home

You be asking why, I be telling you, you know
Call me when you feel alone
Don't expect to hold me down for sure
Cliffside asking why, you know
I don't wanna feel so cold

Take regrets like the shots, you know
Pushing back all the times before
You don't even understand the mood
You'd be wishing that you're actions gold
Bigger fears, even bigger hopes
Doesn't matter, matter if you come or go
Be prepared for battles one (One)
You ain't ever gonna see me at home

Write my name, write my name in smoke
Driving fast and watching life unfold
Pull me back, pull me back I'm gone
You don't ever wanna see me at home
Take it back, take it back, Oh no
Leaving me out in the crowd alone
Treat me like, treat me like I'm gone
You don't ever wanna see me at home
