

Be Us

BGYO

You feel like summertime
Girl, you make me go crazy
C'mon, save me (Oh, I-I)
You got me hoping, I
Been thinking 'bout you lately
C'mon, save me (Oh, I-I)
I wanna be caught up, take out my lonely thoughts
Have me when you're in love (Oh, I-I)
You know that I can't stop
Baby, you keep me up
I know that it gets rough
Stuck in your world, don't wanna go away

Wind so cold where we're goin'
You might wanna take my hand
And get lost in the galaxy
Feel so high in the moment
'Cause being here with you is a fantasy

Girl, you caught my eye
And never got back it to me
Girl, you can keep it
If you want to hide
We can go where only we know
We'll be living in the moment there

Oh, I know, I know we gotta be us
Oh, know we gotta be us, oh, I
Oh, I know, I know we gotta be us
Oh, know we gotta be us, oh, I

Oh, I can't help it but you're making me your own, babe
Oh, I wanna make you mine tonight (Oh, I-I)
Oh, rumor has it that you wanna come on over
I don't wanna have to say goodbye (Oh, I-I)
3AM drives, talk about life
I don't wanna be just another guy
I'll be what you like (Oh, I-I)
Look at the sky, I'll be the night
Baby, your stars, bright up mine
Oh, I can't get enough (Ah, I can't get enough)

Wind so cold where we're goin'
You might wanna take my hand
And get lost in the galaxy
Feel so high in the moment
'Cause being here with you is a fantasy

Girl, you caught my eye
And never got back it to me
Girl, you can keep it
If you want to hide
We can go where only we know
We'll be living in the moment there

Oh, I know, I know we gotta be us
Oh, know we gotta be us, oh, I

Oh, I know, I know we gotta be us
Oh, know we gotta be us, oh, I

Wind so cold where we're goin'
You might wanna take my hand
And get lost in the galaxy
Feel so high in the moment
'Cause being here with you is a fantasy

Girl, you caught my eye
And never got back it to me
Girl, you can keep it
If you want to hide
We can go where only we know
We'll be living in the moment there

Oh, I know, I know we gotta be us
Oh, know we gotta be us, oh, I
Oh, I know, I know we gotta be us
Oh, know we gotta be us, oh, I
