

He's Into Her

BGYO

There will never be like this, girl

She's something else, something magical
Something about her will leave you mesmerized (yah)
Can't just ignore her, look in to her eyes
Hypnotized, she's a force you can't deny

Found her crazy dancing in the midst of a crazy world
I can't stop thinking, I go crazy, I go crazy
Runaway, oh, runaway, I wanna getaway
How crazy, crazy, crazy love can find its way?

I think I'm into her
There will never ever be like this, girl
They say, "He's into her"
I don't know how long I'll hide this love, girl
And when the stars align
Something magic happens that's divine
They say, "He's into her"
Yeah, I'm into her
Into her

I've got nothing but an empty heart
Looking for a place to make me feel secure
'Cause I'm a trapped cat on a spotlight
And I'm drowning in misery (ah)

But she found me crazy dancing in the midst of a crazy world
She might be thinking I am crazy, I am crazy
Runaway, oh, runaway, I wanna getaway
How crazy, crazy, crazy love can find its way?

He's into her
There will never ever be like this, girl
They say, "I'm into her"
I don't know how long I'll hide this love, girl
And when the stars align
Something magic happens that's divine
They say, "He's into her" (he's into her)
Yeah, I'm into her
Into her

Can't stop thinkin' about her
Can't stop thinkin' about her
Can't stop thinkin' about her
Can't stop, can't stop (let's go)

Found me crazy dancing in the midst of a crazy world
I can't stop thinking, I go crazy, I go crazy
Runaway, oh, runaway, I wanna getaway (I wanna getaway)
How crazy, crazy, crazy love can find its way?

He's into her
There will never ever be like this, girl
There will never gonna be
They say, "I'm into her"
I don't know how long I'll hide this love, girl

And when the stars align
Something magic happens that's divine
They say, "He's into her" (he's into her)
Yeah, I'm into her
Into her (he's into her)
Into her (he's into her)
Into her

There will never be like this, girl
