

Middle With You

B.I

Let's make a bedroom on the mountain
And look at all of our surroundings
We'll go from zero to a thousand
And end up blowing our allowance

We could be kids again
Getaway and we skinny dip
Wake up somewhere we've never been
Take a moment to make pretend

We don't care where we are, what we've done, who we've seen
I ain't scared, playing cards, I am the king to your queen
Give me more than just love, give me everything in between
I got nothing to lose, ya, I love being in the middle with you

Middle with you
Middle with you
Middle with you

Starting to feel it all again like I'm 10 years old
A sudden rush of adrenaline fills my bones
It only takes one touch to wake my soul
It only takes one thing for me to lose control

When I'm with you cheongugeul yeotboneun gibun
Nan joa niga geonnae jun hwangholhan hyeongijeung
Jungsimi doeoo jwo eojireoun sesang sogeseo
Pyeongsaeng goripdoego sipeo
Neoraneun seomeseo

We don't care where we are, what we've done, who we've seen
I ain't scared, playing cards, I am the king to your queen
Give me more than just love, give me everything in between
I got nothing to lose, ya, I love being in the middle with you
