(You been talking too much  
I ain't getting no love  
I don't fuck with no trust  
I been hearing rumors  
You been talking too much  
I ain't getting no love  
I don't fuck with no trust)

Karmas coming for you and she showing up with me  
On another one and now we're rolling off the deep  
Wanna tell me lies and you wanna sell me dreams  
I been hearing rumors, how come they not telling me

It's funny how you talk the way you do  
You know me but I don't remember you  
I'll let the karma come for you  
Come for you

You been talking too much  
I ain't getting no love  
I don't fuck with no trust  
I been hearing rumors
