

# Home On Christmas Day

Bianca Ryan

And now that winter's here  
Soon it will be Christmas.  
I see your face so clear  
Though you're far away.  
Your home is in my heart,  
It's every where I go  
And I'll be waiting here  
'Til you're home to stay

I think of Winters past  
When we were together.  
The sweetest memories  
All come into play.  
Your voice rings in my ear  
Just to let me know  
That you'll be here with me,  
Home on Christmas day.

Angels calling from on high  
Will bring a starry sky  
To light the frosted ground below  
So you will know  
Your way back home tonight,  
A candle burns so bright  
To show the way.

I'll make a silent wish  
Just for you this Christmas  
To keep you safe and warm,  
Never led astray.  
That everywhere you go  
Is sheltered from the storm  
And that my Christmas wish  
Is with you every day;  
Each and every day.

Angels callin' down to say  
They'll always know the way  
To lift you 'til you soar so high  
That I will see you  
In the sky above  
My Christmas gifts of love  
Will guide you back.

And now I promise you  
With all my heart this Christmas,  
That all the love we shared  
Will never go away.  
Your spirit's everywhere  
And I hope you know  
That you are always here,  
Home on Christmas day.  
Home on christmas day.
