BIBI

But baby, I'm smarter than others
Jeballo neol naege julge neojocha aljido mothage

(Two, three)
Never let you know, yeah
You would never known
That pop, pop, pop inside of me, baby
Hope you will get it automatically
'Cause I don't wanna say directly
Don't cross the line we keep it secret
And I'm happy with it (Shh)
(Mm-mm) Never let you know (Oh, oh)

Good food and a good love
Good roof all over you (She can get you there)
Hate while when you play game
Sandwich make it juicy (She can get you that)
Kiss and a hug, yakganui mugwansim
Cheering you up when you hit your bottom
Compliments you will never find out that's lie
And feelings that you have power over me

Halgo sipji jabatteutgo sipji sone jwieoteoteurigo sipji

But baby, I'm decent human

It's surprising you're always unpredictable
You're fascinating, unique, ahead of the curve
You stand out among the crowd
You're pretty, cool, more valuable
Want you want to touch you want you in my embrace
So you can never escape me
But baby I'm smarter than others
I will bring you to me willingly without you even knowing

Kiss and a hug a little bit of indifference
Cheering you up when you hit your bottom
Compliments you will never find out that's lie
And feelings that you have power over me

Want to lick you want to tear you apart want to squeeze you till you pop
So you can never escape me
