Before

Bibio

What is this for?
Get on your feet
I've seen it all
I've seen it before me
Oh baby, shut the door
What if he knew?
I've seen you hurt before

What are we doing
With this lie we're living?
I've had it all
Had it before you
Oh baby, lock the door
What if he found out?
I've seen him lose it before

Why are you crying?
Get on with him
I've heard it all
Heard it before us
Oh baby, open up
Why should he know?
I've had this feeling before

Maybe he knows
Let's end this thing
I've had regrets
Had them long ago
Oh baby, say goodbye
Why should you lose him?
I warned you of this before
