

## Like A Sundial

Bibio

Please forgive me I will love you  
If you mend my broken heart  
I will give you if you let me  
All the flowers in the park  
I am standing like a sundial  
Waiting for you til it's dark  
Please remember that we're living  
This is what we have to start  
Please forgive me I was late  
Busy fixing broken darts  
I will show if you wait  
Shoot one through diamonds and hearts  
I am watching like a sheriff  
High above you as a lark  
Please remind me when I'm dreaming  
This is where I have to start
