

Denier

Biffy Clyro

Look how she lays
This must be déjà vu
Draped like a dress on the floor
A different shade of blue

I hope you don't choke
You broke your own rules

I need somebody to love
I need somebody to care for and it's you
It's always been you
And may all our denials come true

Say that you do
Say that you care for me
You make me feel like anything is possible

I hope you don't choke
You broke your own rules

I need somebody to love
I need somebody to care for and it's you
(Somebody to care for)
It's always been you
(It's always been you)
And may all our denials come true

I bet you didn't know
I bet you didn't care
Denial ain't forever
'Cause the truth's in there somewhere

Of course you didn't know
Of course you didn't care
Denial ain't forever
'Cause the truth's in there somewhere
