

Euphoria

Biffy Clyro

This ain't a purple bat
This is a black smile
Both arms are cut in half
Its all that we got

Euphoria
It will keep shining on down
Euphoria
We will keep dripping on down

Can't we force it?
All the simple things
This is not the same place for us now
We are not like everybody else
As I look at your envious face

This ain't a solemn nod
Its the black look
Everything's cut in half
Its all that we got

Euphoria
It will keep shining on down
Euphoria
We will keep dripping on down

Can't we force it?
All the simple things
This is not the same place for us now
We are not like everybody else
As I look at your envious face

The pieces are thrown from here
Despite our chosen enemies
All of our lifeboats
Its smart, will disappear

Euphoria
Euphoria
