Take a long hard look at yourself
How did you end up here
The blood drips like red inverted balloons
Tomorrow is a promise to no-one

E F# G A
If you want, follow me and I'll lead you inside
E F# G A
You don't have to run and hide

D A A Bmi
Eleanor, Eleanor
G E

I would do anything for another minute with you because
D A
It's not getting easier, it's not getting easier

C# D G G (2x)

In a bedroom with no windows or doors
All the happy people are crying
You can't hold a gaze for a second or two
It always ends in total darkness

E F# G A
If you want, follow me and I'll lead you inside
E F# G A
You don't have to run and hide

D A A Bmi
Eleanor, Eleanor
G E

I would do anything for another minute with you because
D A
It's not getting easier, it's not getting easier

D A
You will be folding stars
A Bmi
You will be folding stars
G

You can't even understand
E
You can't even understand

D A
It's not getting easier, it's not getting easier

C# D G G (2x)

E F# G A
It ends in a place with no love only hate
E F# G A
And a mirror reflecting the truth
E F# G A

In your eyes, in your face you can't wash it away

E F# G A

From your cold, cold heart
