

Hope for an Angel

Biffy Clyro

I believe in the human need to believe there's hope for an angel

One who's gone, for he had become, in the sky there's space for an angel

Overhead, if you look real hard, you will see that there's millions of angels

One who's gone, for he had become, in the sky there's space for an angel

I believe in the human need to believe there's hope for an angel

One who's gone, for he had become, in the sky there's space for an angel

Into the sky there's a space for an angel

Look to the sky there's a space for an angel
