

Plead

Biffy Clyro

Take my hand, let me demonstrate
The tide will suck everything away
You could wear my skin if it lifted off straight
But don't get shirty with me
Don't get shirty with me
Don't get shirty with me

What's this lover's law
That you take to every town
I hide my disappointment
As we head to the south
What is this confusion?
What is this mistake?
We took to the road to disappear
Avoid our dreaded fate

Round and round all your stories go
I don't know if any are true
You frame your thoughts, hang them on your wall
But don't bring trouble to me
Don't bring trouble to me
Don't bring trouble to me

What's this lover's law
That you take to every town
I hide my disappointment
As we head to the south
What is this confusion?
What is this mistake?
We took to the road to disappear
Avoid my dreaded fate

A plead in love (Love, love, love, love)
A plead in love (Love, love, love, love)
A plead in love (Plead, plead. Plead)
A plead in love (Love, love, love, love)

(Plead, plead)
(Plead, plead)

I'll plead anything you want me to
I'll be everything you wanted
I'll plead anything you want me to
I'll be everything you wanted
Ah
