

Witch's Cup

Biffy Clyro

We're drinking from the witch's cup
Like no one in the world before
I know we all die
I just hope that there's one exception

The death of an original
Like no one ever lost before
To all the adored
There's just before and after

You're never gonna fill my cup
Unless you say you want it, you want it
How am I meant to lift this up
If I can't even see it or feel it?

'Cause oh
I just hope when we go
That there's something deeper
Only light in the sky
No rivers below
I won't deceive at all
Believe it
Believe it

We are individuals
Looking for something meaningful
This world's full of holes
The myth of the happily ever after

We're drinking from the witch's cup
Like no one in the world before
I know we all die
I just hope that there's one exception

You're never gonna fill my cup
Unless you say you want it, you want it
How am I meant to lift this up
If I can't even see it or feel it?

'Cause oh
I just hope when we go
That there's something deeper
Only light in the sky
No rivers below
I won't deceive at all

Whoa!
Where to begin 'cause I'm scared to believe it
Whoa!
Can you dare believe it all?
Believe it all

Believe it all
Believe it all

Oh
I just hope when we go

That there's something deeper
Only light in the sky
No rivers below
I won't deceive at all

Whoa!
Where to begin 'cause I'm scared to believe it
Whoa!
Can you dare believe it all?

Believe it
Believe it
