

# C'Mon Every Beatbox

Big Audio Dynamite

(Sit tight and listen keenly while I'll play for you a brand new musical biscuit)

There's been a brainwave at the radio station  
(Old idea from the Woodstock generation)  
Calling all the kids from across the nation  
(In some it brings out love in others termination)

Love and unity  
Don't worry 'bout the power, we got a generator  
And publicity  
Batteries for rent, you can pay us later

Get your digital watches in synchronization  
(Producer of the shows got a selfish motivation)  
It's the place to be and we got a location  
(Another gold disc for an album compilation)

Bring the family  
Everybody's welcome, there will be no discrimination  
Take a tip from me  
In case there's a problem, bring identification

C'mon every beatbox in the place to be  
C'mon every beatbox, we got Ramellzee  
C'mon every beatbox, let's party and how  
C'mon every beatbox, let's party right now  
Party right now

Watch me  
I got it  
Watch me

So the holy smokes are coming, we got a confirmation  
(Centre of the city been a major transformation)  
Gandhi got a shock and he took a vacation  
(Check the wild life, it's a real fascination)

Hope they stay in line  
Raiders Posse British born but still they're Jamaican  
Dialing 999  
Salt 'n' pepper people, stirred not shaken

C'mon every beatbox in the place to be  
C'mon every beatbox, we got Ramellzee  
C'mon every beatbox, let's party and how  
C'mon every beatbox, let's party right now  
Party right now

(Hold it right there)  
(The white man left me nothing out here but the underworld and that is where  
I dance. Where do you dance?)

The knights of Saint George dressed for aggravation  
(Heard about the party and they sent a delegation)  
The bulldog crew don't need no provocation  
(Got a strange idea about the country's liberation)

B.A.D. and little Siphó  
Help keep the peace, don't need no lawbreaker  
No one can stop the show  
The promoter didn't book no undertaker

C'mon every beatbox in the place to be  
C'mon every beatbox, we got Ramellzee  
C'mon every beatbox, let's party and how  
C'mon every beatbox, let's party right now
