

Dragon Town

Big Audio Dynamite

China Town friday night
The weekend`s allright
Dragon dance the yellow streets
Gambling Dens and sour sweet
Neon signs inside of my head
Better thought and never said
As long as I don`t get to close
And I don`t offend my hosts

No way out on Gerrard Street
Dragon`s heart begins to beat
If this night could last all day
Order you and take away

At this corner we must part
Say goodnight where Soho starts
In the Lido people stare
Pretending I don`t care
Thrown a menu I can`t read
What number do you need
Fortunes told and fire crack
Letter bold you must get back
I really have no appetite
Dragon town on friday night

No way out on Gerrard Street
Dragon`s heart begins to beat
If this night could last all day
Order you and take away

If this night could last all day
Order you and take away
No way out on Gerrard Street
Dragon`s heart begins to beat
If this night could last all day
Order you and take away

If this night could last all day
Order you and take away
No way out on Gerrard Street
Dragon`s heart begins to beat
If this night could last all day
Order you and take away
