

Everybody Needs a Holiday

Big Audio Dynamite

Everybody needs a holiday
Everybody needs a holiday
Everybody needs a holiday

Close your eyes
And hit the sack
While your asleep
I'll watch your back
Grab a chair
Have a seat
I've got the wheel
Rest your feet

I'll stand guard
And keep the wolves at bay
Watch the fire
While you dream away
Earned a rest
I know you worked all day
I know
And everybody needs a holiday

Take a break
Shake that frown
Re-assess
What's going down
Spare a thought
While you sit
Reconsider
And admit

I'll stand guard
And keep the wolves at bay
Watch the fire
While you dream away
Earned a rest
I know you worked all day
I know
And everybody needs a holiday

Earned a rest
I know you worked all day
I know
And everybody needs a holiday

I'll stand guard
And keep the wolves at bay
Watch the fire
While you dream away
Earned a rest
I know you worked all day
I know
And everybody needs a holiday

I'll stand guard
And keep the wolves at bay
Watch the fire

While you dream away
Earned a rest
I know you worked all day
I know
And everybody needs a holiday
