The Globe

Big Audio Dynamite

Break it on down
Bless you
Bless you
I wanna bless you
Bless you

Where are you going
My beautiful friend
Is this the road that
You take till the end
And if we left behind
Is this the highway
Of our mankind

Axes spins so round and round we go Where we're goin' no one really knows Here we here we here we go Feel the fire Way down below

Come on dim the lights It's party time Switch on the strobe

Do what you like Gonna have a ball tonight Let's have a ball Down at the Globe

Come on dim the lights
Switch on the strobe
We're gonna have a ball tonight
Down at the Globe

Get up and clean your teeth and have a shave It's 1 a.m. let's go out to a rave One more and before we hit that grave It's harder than a microwave wave

Come on dim the lights
It's party time
Switch on the strobe
Do what you like
Gonna have a ball tonight
Let's have a ball
Down at the Globe
Where's the party officer?
Here we go party time break it all down

Where is the failure
Not in this land
But still you try to
Get what you can
You know that it's bad but
If you insist
Here's one more chance now
That you just missed

I believe you I believe you

Waking up the global warning way Nepal cornflakes for my special kay

What's the halth departement got to say Don't smoke more than 50 fags a day Come on party on down
