

The Tea Party

Big Audio Dynamite

Well, they told me
It would be OK
And they told me
They told me what to say

And I just can't wait any longer
I've gotta move today

I would've liked to know you
As an innocent child
Innocent child

Ten million tons of water
Thrown into the air
While we jacked the bodies
Like we don't care

Can somebody tell me
What am I doing here?
You know I like to party
But how much can I bear?

But when the time comes
When the time comes
When the time comes
They're gonna terrorise
