

You're not alone anymore
Never alone with me
Just a dude from Dade county
Counting all he sees
You're not alone anymore
Never alone with me
Take a breath and count to three:
One, two

Don't you worry baby
I will be right here
I will always stand by your side
Don't go and disappear
Don't you worry baby

I'll never not see you
I'll never not answer or reply
I can confidently say
I am all of time
There is no beginning
There's only me then you then me
Just a dancing dream catcher
Catching a dancing dream

Don't you worry baby
I will be right here
I will always stand by your side
Don't go and disappear
Don't you worry baby
I will be right here
Come tomorrow morning you'll remember
Don't go and disappear
